Specification Value

Size-Width	22.5 mm
Number of Outputs	1
RoHS	Compliant
Output Voltage	24.0 V
Size-Length	107 mm
Lead-Free Status	Lead Free
Mounting Style	DIN Rail
Size-Height	99.0 mm

Datasheet

The screenshot displays the Octarine application interface. The top bar features a search bar and a 'Find Components' button. The left sidebar contains a list of components, with 'ATMEGA328P' selected. The main content area shows the 'ATmega48A/48PA' datasheet, which includes a table of contents and a detailed description of the microcontroller. The bottom bar displays the 'Powered by Octopart' logo.

Organize Parts

The screenshot shows the Octarine application window. The 'File' menu is open, displaying options: 'New', 'Open...', 'Open Recent', 'Close', 'Save...', 'Custom Part', 'Group', and 'Group from Selection'. The 'Group' option is highlighted. A yellow callout box points to it with the text 'Create a new, empty group'. Another yellow callout box points to the 'Group from Selection' option with the text 'Create group containing selected items'. A third yellow callout box points to the 'File' menu itself with the text 'Double click to edit part information'. A fourth yellow callout box points to the 'Group' option with the text 'Delete selected items'. A fifth yellow callout box points to the 'Group from Selection' option with the text 'Drag selection to new group. Option-drag to copy.' The background shows a component list with 'NE555N' and 'ATMEGA3' under a 'Microcontrol' category. The bottom of the window says 'Powered by Octopart'.
